

Protecting the Beyton Geese- they need your help !

The potential threat of Avian Flu remains in our area, we are required by DEFRA to continue to quarantine our geese on the village green. The latest instruction extends the quarantine period until the end of April.

Appeal for help:

- 1. Supply of Lettuce and other suitable feed**
- 2. Help with feeding and watering. For the last 3 months Sandy Maynard and Andrew Nimmons have generously given their time twice daily. Beyton Parish Council is seeking assistance from other villagers to share some of the load over the next two months.**

If you feel that you are able to help with either the food supply or feeding of the geese or even joining a rota please contact Graham Jones 271266 or John Clark 270818

Thank you.

Graham Jones. Chairman Beyton PC. 08 Mar 2017
